# The Anatomy of Central.

“ We are made of roughly one thousand and fifty students, and they are devoted to working to the best of their ability. Not only are we made of hard working students, we are also made up of committed teachers who push us to success. Quitting is not an option. Best of all, we are made of pride! We stand proud for who we are and what we are made of. We are Central High school! ”

CHS Library

Students will be engaged in a relevant, diverse and varied curriculum that is driven by individual student needs, abilities, and talents. This curriculum will incorporate varied teaching strategies and assessments. The school day will be flexibly structured to meet a variety of needs in the Central High School family. Our school will be a center of activity where caring adults guide students to be self-motivated, life long learners.

# Ms. Judy Reich

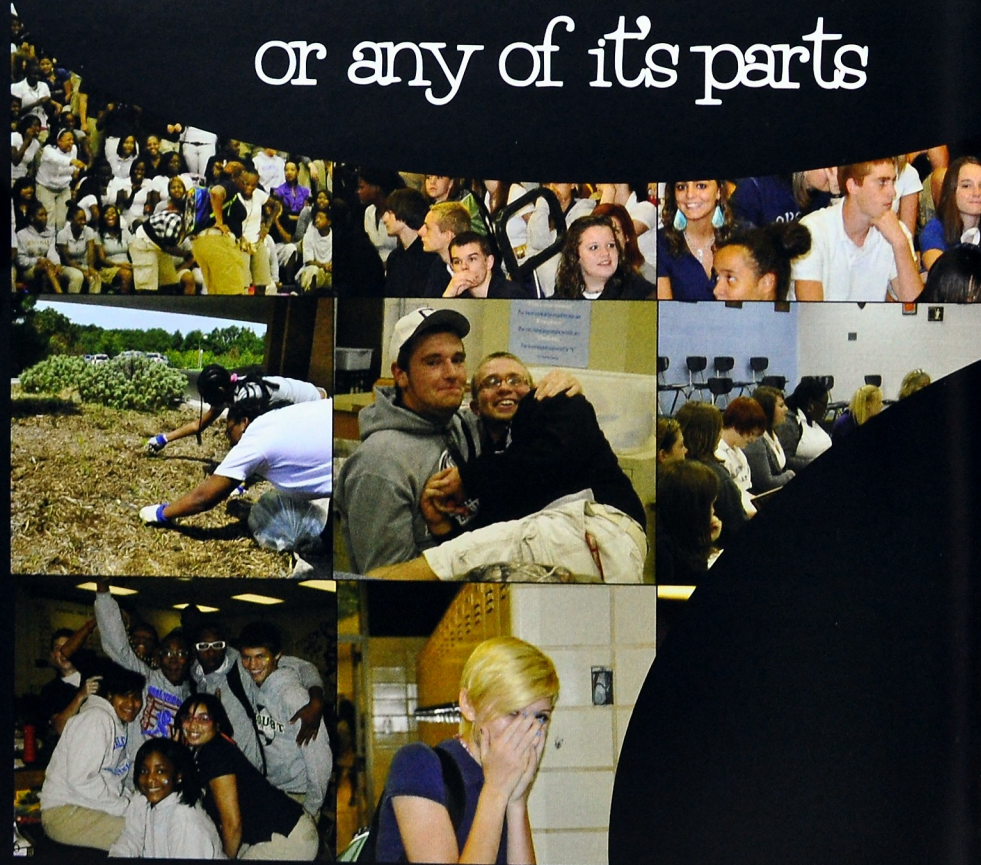

*What teacher comes in mind when you think of music or theater arts? Ms. Judy Reich, of course! Not only has she been a purple pounder for 38 years, she has also taught about five former students that are now teachers at Central High. She has taught math, world geography, u.s. history, choir and concert theater. "Central has changed over time since I have been here." said Ms. Reich. "There is a larger amount of students and integration." Her favorite thing about being a teacher is watching the students faces as they sing. When Ms. Reich found out that she was chosen as dedicatory this year, she cried. She was so shocked that senior Spencer Hood had to hold her up. Ms. Reich is one of the many great teachers at Central. The number of students that she has helped is unbelievable! Thank you, Ms. Reich, for everything that you do to make our school better!*

# S P R I N G W E E K

Each year, the Central High student body gets pumped up for Homecoming by participating in Spirit Week. Every student, and even the teachers, look forward to hearing the new categories for that year. This year we started the week with "Twin Day". However, most students were not at school to participate due to the bad weather that morning. Students wore attire from their favorite sports team on Tuesday. On Wednesday everyone went back in time for "Blast from the Past Day." Thursday was extra crazy. It was "Tacky/Nerd Day", which seems to be the all-time favorite! We ended the week on Friday with our annual "Purple and Gold Day." Spirit Week was a big hit, yet again!

# POWDER PUFF!

Whatever you can do we can do better!

Junior's

Senior's

In the mood for a change? Well that's why we have Powder Puff! Its a chance for the junior and senior girls to show their stuff on the football field. Not only do they have the whole student body cheering them on, but the guys do their best to be outstanding cheerleaders. Although every girl fought for the win, the junior girls lead their class to victory with a final score of 7-0!

Maurice King.

Christan Cooper.

We are...Central!

Homecoming is always a popular night for our school. The stands are filled with students, teachers, parents, alumni, and even people from other schools. Everyone anticipates the half time show, waiting and waiting to find out who will be crowned as this year's king and queen. The band, barrel boys, dance team, cheerleaders, and color guard step it up a notch to get the school spirit flowing. Most importantly, the boys work to the best of their ability to make their fans and community proud. This year we defeated East Hamilton 27-21, which moved us on to the playoffs!

# humanities academy.

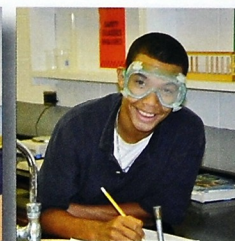

*"To challenge our minds,  
move our hearts, and  
touch our community."*

The Humanities are about being human. The Humanities wrestle with the condition and with the important questions that each of us has to answer: Who am I? How did I get here? What is the meaning of life? How do I know right and wrong? What are truth and beauty?

The Humanities are practical. They are not just a bunch of ideas disconnected from the real world. The Humanities are not rocket science. Rocket science is physics and chemistry; the Humanities are where we wrestle with the meaning of life.

## "Miles Above the Ordinary"

The mission of the Math, Technology, and Science academy is to provide Central students an excellent high school education with a focus on math and science career preparation. We believe that the students who accept the challenges of a rigorous curriculum in math and science basics and electives will find themselves excelling as they continue in college and science related careers.

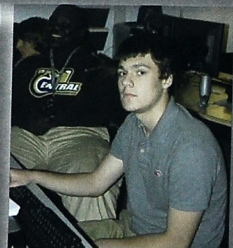

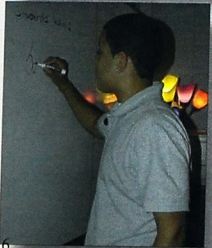

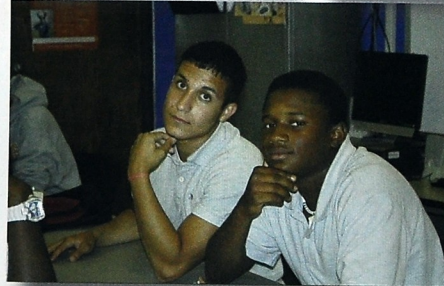

-Mrs. Sellers

## math, technology, & science academy.

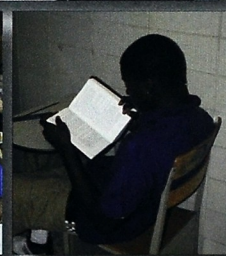

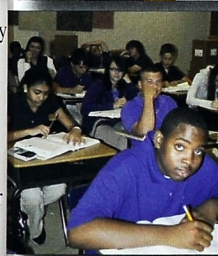

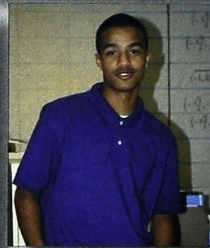

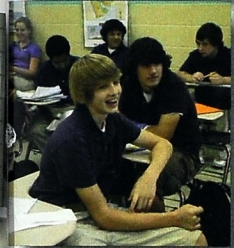

# TECHNOLOGY, COMMUNICATIONS, AND BUSINESS ACADEMY.

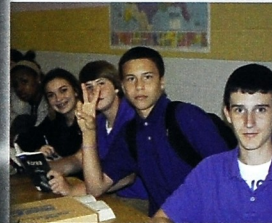

The Business Academy is modeled on the structures and quality practices of 21st century corporations. This academy incorporates a fully integrated and relevant academic and business related curriculum. In addition to core subjects in Math, English, Science, and History, students in TCB will be preparing for post-secondary education by completing rigorous business courses that will prepare them for college level business classes and for the "real world of work". Because of their choice to be in the TCB Academy at Central High School, these young associates are taking the right steps to assure their future both academically and financially."

-Mr. Stone

The ninth grade year is the most important year of high school. Success in ninth grade determines success in high school and graduation. Personalization is a key component. We have a core group of teachers dedicated to helping make the freshman year a success. Students are encouraged to get involved in their school by participating in team sports or joining clubs. Some successes include more students being promoted to the tenth grade in one year than before the academy approach and test scores being up across the board.

## Anatomy of a Senior

Senior year is the most important time in your high school career. Seniors are responsible for completing their SEPOD, college applications and scholarships. Upon finishing these responsibilities, seniors will be able to relax and participate in the special activities planned for them throughout the year.

# ANATOMY OF A JUNIOR

Class of  
2012

Darisha Hixson - Junior

Being a Junior at Central is a totally new challenge from any other year. For many students, it is the first opportunity to work towards college credits with A.P. classes. Junior year is the first year that you can go to prom, participate in powder puff, and this is the first year that you are considered an Upper Classman and, for many, it is the first time to take the ACT and go on college tours.

Being a sophomore is one of the best years of high school. By now you know how to get around the school and how to find your way around all of the circles, you are no longer scared of all the teachers, and you are familiar with the principals. You are at the stage where you made it far enough to understand what is going on, but you are not to the point where you HAVE to focus on the ACT or AP classes. You get to choose your acadamy, be on the champion staff, be an aid, take the PLAN test, and start to focus more on your credits. Although there are a lot of great aspects about being a sophomore, the best part is that you do not have to wear purple everyday; that is what makes the

Being a freshman at Central isn't all that easy.. Getting called a "grape" by all the upper classman, trying to find out how to get to your next class, and making the switch from being at the top of the food chain in middle school to being at the bottom in high school. But it isn't all that bad, you also get to make new friends, meet new teachers, eat a more tasteful lunch, and start on a clean slate.. These are the things that make up the **Anatomy of a FRESHMAN**

decision of

his life: Strip the ship for all it's worth or rescue its lone survivor, a beautiful and wealthy girl who could lead him to a better life.

## Bringing an End to Hunger Games
